

How to improve participation at the wellness screening!

1. Communicate the information in at least 3 ways:

- faculty meeting
- email
- face-to-face
- bulletin board, etc.

2. Sign up - If people see that you are NOT participating, they will question why they should. If **you** participate, others will follow!

3. Provide Coverage - Speak to your principal and see if there is a way to cover classrooms for teachers.

4. Get your Principal to sign up - If employees see someone in authority participating, they may be more likely to sign up!

5. Cafeteria, Extended Day, Custodial - Don't forget to take the information directly to these groups.

6. Highlight the Benefit - Remind employees what a great opportunity this is....and don't forget about the Publix Gift Card!
