## *~ Success Story ~*

Karen Edsall (HR/Payroll Manager at Jenkins Auto Group) spent most of her childhood overweight and very inactive. It was not until high school that she decided it was time to make a change to her eating habits and lost a substantial amount of weight. Up until about 10 years ago, Karen had been able to maintain a healthy weight, but a change in medication caused the pounds to quickly pile on.

Fortunately for Karen, Florida Blue (in partnership with the local YMCA) was offering a free Lifestyle Change program focused on preventing diabetes. Karen had a family history of diabetes and knew if she didn't start making some changes to her daily routine, she was headed down the path to poor health too. Throughout the 16 week program, Karen gained a new perspective on watching food labels and dining out. She quickly learned that many of her old habits were not going to fit with her new lifestyle! Karen's Lifestyle Coach encouraged her to track fat grams and "get up off the couch" and start walking...something Karen had not focused on back in high school. Currently, Karen walks 4-5 times/week and has also incorporated weight training into her routine 3 days/week.

Since starting the program in February, Karen has dropped two pant sizes and is now in the healthy weight range for her height. More importantly though, Karen is more energized and feels better! Karen continues to work with her Lifestyle Coach to stay on track and remain committed to the changes she has made!
