

Title: Fast Food Consumption on Energy Intake and Diet in Children

Subject Area/Grade Level/Instructional Focus:

10th Grade/Language Arts/LA910.6.2.2;LA910.2.2.1;LA910.1.7.3

Vocabulary:

Consumption
Demographic
Fat
Obesity
A la cart

Materials/Resources/Graphic Organizer:

1. Article (Effects of fast food consumption on energy intake and diet quality among children in a national household survey). (Shanthy Bowman, Steven Gortmaker, et.al).
2. CIS Organizer – Question Sheet; Note Taking Sheet; Response Sheet

Instruction Type(s):

Guided Instruction; Independent/Collaborative Practice; CIS (Comprehensive Instruction Sequence)

Components:

1. Question – How does fast-food affect the diet of students?
2. Predictive response before reading – Does fast food consumption really have an effect on the energy intake and diet of students?
3. First draft after reading – Same question
4. Final response after re-reading the text and extended text discussion (same question).
5. Directed Note Taking – record notes containing the most important information.
6. Questions – record questions that you have based on notes and text-reading.
